**SOFT INTELLIGENCE**
RETAIL SOLUTIONS WITH A PERSONAL TOUCH
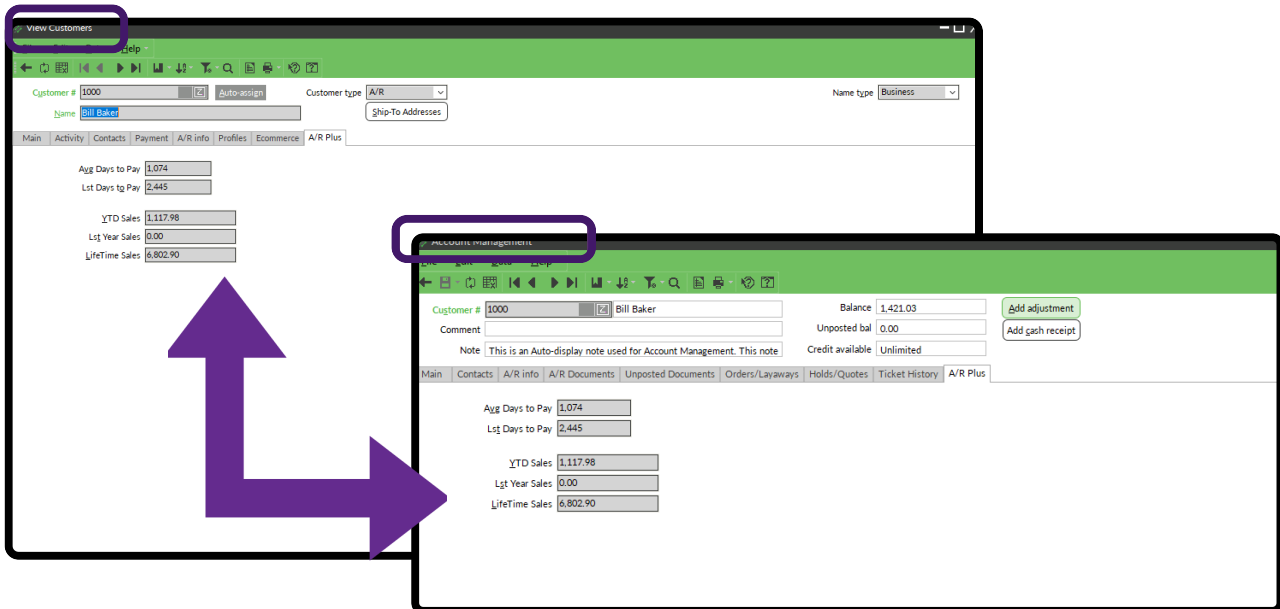

Make informed customer credit decisions with
SOFT INTELLIGENCE Accounts Receivable *Plus*
enhancing your Counterpoint Accounts Receivable module.

Easily identify your best customers and use real-time actionable data and trends to determine if you should increase their credit limit or extend their payment terms. A new tab within the customer record and Account Management windows automatically populates with data including Average Days to Pay, Last Days to Pay, Lifetime Value and sales totals.

Accounts Receivable *Plus* features include:

- **View your customer's YTD, Last Year and Lifetime sales totals**

- **Simplified view into payment history data**

- **Allows entry of user specified ticket dates**

- **Add the ability to sort customers based on Accounts Receivable *Plus* fields**
